# SERVICE ENGINEERING ALERT NOTICE

**SEAN-002- 2001**

**Date: Nov.5, 2001**

AIRCRAFT AFFECTED: All Twin Engine Convairs

SUBJECT: Request for Flight Profile Data

PURPOSE: Assist in maintaining the continuing airworthiness of the Convair family of aircraft.

BACKGROUND: Our Engineering department requires typical flight information in order to establish an analysis on fatigue damage in reference to the aging aircraft document FAA-1999-5401 Notice 99-02 and SID ZS 340-1000.

We have included two pages with this notice, one is a sample form to act as a guide to completing the second page which is for completing the information requested and returning to the address listed below.

Recommendation:

Please include your contact information including mailing address, phone, fax and e-mail for future contact.

Bill De Meester
